

Pet tags are made from metals thicker than .020. The heavier guage allows for stamping into the metal with steel type. These custom shapes are commonly used for licencing.

Uses:

- Municipal Cat & Dog Licences/Rabies Tags

Materials:

- Aluminum - .050 available in red, blue, green, orange and natural finish
- Brass - .032
- Stainless steel - .032

Sizes:

- Standard shapes are pictured below – custom shapes are available on request.

The shapes above are commonly used by vaccine companies for rabies identification. Municipalities ordering tags for licencing are urged to choose one of the shapes as shown below.

MARKING METHOD

Text:

Order blank or stamped (recessed lettering). Character sizes are 1/16, 3/32 or 1/8" high. Consecutive numbers, up to 6 digits are available 3/32 or 1/8" high. Logos, special graphics, custom shapes and imprinting on front and back by quotation only.

Packaging & Attachments:

- Standard packaging: 100 tags strung onto a wire with your choice of "O" ring or "S" hook
- Strip packaging: One tag and your choice of "O" ring or "S" hook sealed in a plastic bag. Bags are in a continuous strip of up to 500/box, perforated for easy separation.
